

Dear customers,

Already at the beginning of the year we had to accept a considerable price adjustment of raw materials from our supplier.

The raw material prices on the global market continue to rise incessantly. Therefore we are forced to adjust the prices again from 01.06.2021.

All product groups whose six-digit article number starts with a **0** or **4** will be affected.

We reserve the right to also adjust the prices of article numbers that begin with **8**, depending on the respective market situation.

You can request an individual price list from your contact person.

Orders that are already placed and frame orders will be delivered at the confirmed conditions.

If you are already planning frame orders, please contact us as soon as possible for an individual calculation.

Due to the significantly extended delivery times based on the shortage of raw materials, early planning would be very useful.

We hope that the situation will ease soon. Thank you for your understanding and the trustful cooperation.

We are available at any time for further queries.

With kind regards,

Ingo Schneider
CEO
