

The well-known CASAMBI wall switch, but...

Dear Sirs,

you already know the white wall switch that can control your CASAMBI devices even without batteries. Thereby you have the choice between two and four programmable push buttons.

You recently have also been able to get to know our anthracite conversion sets for this wall switches (remote insert required).

Part no. 808922

Part no. 808924

Part no. 808992

Part no. 808994

Part no. 808923

Now we have added the same wall switch with a socket behind it to our range:
The wall switch is also battery-free and works with its 4 push buttons like the
article [808924](#).

The difference: when pushing the frame, the wall switch slides upwards and
releases the conventional socket.

This wall switch is available:

with an F socket:

Part no. 808693

with a J socket:

Part no. 808694

with an E socket:

Part no. 808695

with a G socket:

Part no. 808696

We say Goodbye!

Melina Szturmann is leaving us after 4 1/2 years on 01. April 2023.

She started her apprenticeship for office management in 2018 and completed it within 2 years. Since then she worked for the marketing and as a trainer, as well as an assistance for our sales, purchasing and warehouse.

We would like to thank her for the cooperation and wish her for the further path of her life

all the best!
